The Market in Depth

More record high prices for Gold and Silver have continued to dominate our market during the past week. Gold climbed to a record close of $1,377 on October 14 and Silver reached $24.49 the same day, taking just three days to break through $24 trading range from $23. Some dealers are reporting more Gold buying by the general public than selling, and it's starting to get a bit more difficult for some dealers to provide Gold bullion coins to retail customers. Other potential customers are sitting on the sidelines as they believe prices are at a peak and not worth the risk. These speculators have vowed to jump back in if and when a correction comes into play. Increased attention has been focused on the potential for Silver to continue to outperform Gold, and some buyers are switching gears. This bodes well for established brick and mortar coin shops across the country if bullion bugs swap yellow for white.

Higher precious metal prices have stimulated new higher Bids within many segments of the coin market, most noticeably for Silver coinage rather than for numismatic Gold coins. Many dealers and collectors alike are surprised that premiums for common Gold Type coins continue to drift lower. This is a normal occurrence as Gold Spot rises quickly and is usually temporary with coin prices eventually adjusting in the same direction as Spot. In addition to lower premiums, spreads between Bid and Ask have tightened. Morgan and Peace Dollars are reacting favorably to the recent surge in Silver Spot with higher Bids seen across-the-board for Circulated material. Higher Silver Spot has also spawned an increase in offers to sell Silver related coins, such as Silver Proof & Mint Sets as well as Circulated Rolls, Singles and Sets of better 90%.

Type, Early Copper, and Gold all did well in the October 15 sale conducted by Scotsman Auction Co. in conjunction with the Silver Dollar & Rare Coin Expo held in Saint Charles, MO. The crowd participating in the auction was strong, forcing some dealers to stand. The PCDA held a Paper Money show on the adjacent level and may have contributed to auction activity. Scotsman reported that 85 percent of the lots actually sold, resulting in total prices realized of $1,585,574. The price paid for the top lot, a 1794 Flowing Hair Dollar graded PCGS VF30, which brought $109,250, fell mid-way between cataloger's pre-sale estimate of $95,000 to $125,000. We have listed a few of the many highlights above.

The national show circuit next heads North East for Coinfest, scheduled to begin Thursday October 28 in Stamford, CT with a public auction by Heritage. Baltimore will follow with Stack's conducting a pre-show auction November 2-3, with a Bowers & Merena sale to trail, slated for Nov 4-6 as host auctioneer of the Whitman show.

This Week's Market

CENTS THRU HALVES: Bullion sensitive rolls, both Unc and Proof are higher for all denominations. Many sell offers of BU 90% Dimes and Quarters are only slightly higher than Asking prices for junk Silver bags.

MERCURY DIMES: This past week included sales of an AU50 1921, an AU50 1921D, and a VF25 1942/41, each PCGS graded, for $760, $990 and $500, respectively. The foregoing sales are not the "pie-in-the-sky" exceptions, rather they are quite typical.

WALKING LIBERTY HALVES: Some dealers have been pointing to Gem late date Walkers from within the short-set as perceived bargains. Bids for many of these collector favorites have yet to move higher, even with Silver Spot up 20% in the past month.

DOLLARS: At least one market maker is Bidding $49 to acquire common date Morgan Dollars in MS64, asking only that the coins are PCGS/NGC and "whitish." Two better date issues are boasting higher Bids in Gem condition, the 1879O and 1885S, now at $3,100 and $1,650, respectively. Circulated Silver Dollars are the hot-ticket item, riding the Silver Spot wave to new vistas. All of the common dates are higher in grades VG through AU, with a few specific issues needed immediately and are Bid slightly over these levels in hopes of acquiring them.

PROOF SETS AND MINT SETS: Higher Bids for Proof and Mint Sets are in direct response to an accelerated Silver Spot. Some of the increased Bids are from those who are working with a refinery and require that the coins be removed from the government packaging and readied for melting. Additionally, nervous sellers are observed, offering "ad hoc" lots significantly behind melt. High Bids for several Silver Sets including: Silver Quarter Proof Sets and Proof Sets from 1960 to 1964 are less than melt.

COMMEMORATIVES: Bids remain firm in the MS65 and MS66 aisle; nevertheless, it is still possible to find material that is solid for the grade for less money. It is status quo for Arkansas Type though at least one dealer is hot for a nice white example of the 1937S and is offering $200 for a Gem. Gold Commems see a little upward movement in MS65 and MS66 as the $2½ Sesqui and '17 McKinley Memorial Dollar trudge higher.

TYPE: Dealers are actively looking to acquire early Dollars and Halves in grades XF and AU at Bid. Proof Type remains firm with visible Bidders in place for nearly every design Type in all metal compositions. PR63 through PR65 are the primary grades targeted by way of offers to buy at current levels. Indian Head Cents, Two Cent Pieces, Barber Dimes, Liberty Seated Quarters, Barber Halves, Seated Halves, Seated Dollars, Morgan Dollars and Trade Dollars all enjoy solid demand.

GOLD: Spot Gold is still trading in record territory yet Mint State Gold Type is mixed with advances and declines. Small denomination Gold is higher while common Double Eagles are lower. Observers here are somewhat bewildered by this segment of the market. Some point to a recent influx of generic $20 Saint-Gaudens and Type 3 Libs coming into the US from Europe and therefore creating an abundance on the supply side.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect prices at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and [illegible] the Jefferson series, some of the rolls in the late 50's tend to be dark – these bring lower prices, "gem, full steps" rolls (when available) bring higher prices. In the Mer[illegible] bands" rolls are worth more than listed prices particularly the pre-1941 issues. Washington rolls dull or "put together" bring lower prices. Gem full struck Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over $100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

SILVER DOLLARS MOVE HIGHER
BALTIMORE ON DECK

The Market in Depth

The bullion bull has taken a breather from its hard-charging run through successively higher price barriers during the last two months. It was August 25 when Gold and Silver began waking up from their summer slumber. And at least for now, prices have temporarily settled on a plateau without a precipitous fall. Does this mean they're heading higher rather than lower? That's the general consensus of many experienced coin dealers and their clients. While these price escalations have taken place, the recent trend among retail buyers has been gravitating toward Silver. They believe to be getting more bang for their buck and they see Silver as still having the potential to double before reaching its all-time record high of about $50 set back in 1980. This increase in demand for Silver in nearly all forms is evident and can be clearly seen within Dollars as of late.

Likewise, as Gold has settled over $1,335, investors are looking at other alternatives such as Platinum and its lesser-known cousin, Palladium. Prices for these two metals haven't had the dramatic price rises experienced by both Gold and Silver during this last run-up. While Platinum is well-known, Palladium is getting some notice. Congress is considering approval of a Palladium one ounce bullion coin featuring the classic design used for the Mercury Dime. A bill was passed by the House of Representatives on September 29 approving this coin, sending the issue over to the Senate.

Dealers and their collector/investor clients are also considering the drop-off in premiums for numismatic Gold coins when making their buying decisions. For example, even though Gold has nearly doubled in price during the last two years, $3 Gold pieces in all grades are trading for less money today than they did in 2008. Some of the other smaller denominations have changed very little in price during this time, and the larger denominations, priced closer to bullion, have seen their premiums fall substantially. At this time two years ago, with Gold at about $742, the premium for AU58 $20 Type III Libs was 30 percent. Last year at this time with Gold at $1,042 it was 20 percent, and now the premium is just 8 percent over melt.

Doyle of New York is set to offer 170 lots of US coins on Nov 1 in New York City. Highlights of the sale include an 1888 $3 Princess certified MS65 by NGC and a 1907 $10 Indian, also a Gem and holdered by NGC. Baltimore is the next stop where the action will take place Nov 4-6. Two auction houses will bring operations to the show, Stack's just prior on Nov 2-3 and Bowers performs on the main stage as the host auctioneer Nov 4-5. Highlights from the Bowers sale are included herein.

This Week's Market

MERCURY DIMES: No real advances or declines to report this week for Mint State examples. The majority of prices realized at retail public auctions continue to be well above dealer wholesale Ask, especially in collector friendly grades. Circulated common dates are being offered for just over melt.

WALKING LIBERTY HALVES: A half-dozen Gems, starting at 1935D and ending with the 1947 came up short this week, each of the six issues tagged with a minus sign. These issues are either being offered for less or sold at a discount. Not transparent when studying the chart are the many coins that sold for appropriate levels, for example, a 1917 PCGS MS65 CAC realized $978 in a recent public sale. Mintmarked specimens in XF condition are receiving Bids in the $8.50 - $9 range.

DOLLARS: Market dynamics continue apace for common date, Circulated Dollars. Dealers are still in need of large quantities at current levels. Sellers did not rush to the scene when Spot dropped 5 percent, but neither did buyers feel the need to advance Bid in the light of Silver's volatility. Higher dealer-to-dealer buy offers are targeting over 20 Morgan and Peace Dollars in MS60 condition. Most of these increases are for slightly better dates. Generic Morgans are higher in Choice and Very Choice, now Bid $38 and $50 respectively. Blue and Brown Ikes continue to climb, up 26% in six weeks at $7.25 Bid.

PROOF SETS AND MINT SETS: State Quarter Proof Sets from 2003 through 2008 move to a lower rent neighborhood. Mint Sets are steady overall with only the 1970 Set stepping up to $11 Bid. Otherwise, the usual buyers are present at or near Bid for their specific needs. Sellers are fewer in number, mostly offering "as a lot only" deals of a single Set in bulk or date runs of ones and twos.

COMMEMORATIVES: Dealers Bidding along the 1935 Spanish Trail are looking to flush out examples at each grade level from MS60 to MS66 inclusive. Select Classic Gold Commems are lower from XF to MS66. The largest drop was recorded for 1905 Lewis & Clark Dolllars in MS65, now at $12,000. Silver Dollars within the Mordern Commem segment are now Bid a minimum of $18 with several dealers needing quantities. Many of the buyers do not require the original packaging or certificate of authenticity at this level and only specify that they remain in the Mint capsules.

TYPE: Circulated Silver Type locates a few upwardly mobile players - Trade Dollars in XF-AU and Seated Halves in XF. 1859 Indian Head Cents are needed in grades MS63-MS65 with dealers offering to take them at full Bid. Solid for the grade, popular Proof Types: Barber (Dimes, Quarters, Halves) and Liberty Seated (Quarters, Halves) No Motto sold last week for 10 to 20 percent over Bid on average at various online venues.

GOLD: Most issues in the Gold Type chart below are lower, now traveling in the same direction as Gold Spot. Some bright spots do exist within the minor denominations with Quarter Eagles higher in VF through AU. Generic Double Eagles are down across-the-board through MS64. Type 3 $20 Libs are bucking the trend with full-grown spot free Gems showing that they can stand on their own two feet, climbing to $3,650.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the prices at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by those which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium over Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XLVIII No. 45 November 5, 2010 *. . .a Friday morning report on the Coin Market*

PRECIOUS METAL DEMAND CONTINUES
CT GAVEL HAMMERS $9.4 MILLION

The Market in Depth

While there are thousands of collectors across the country still buying coins for their collections, dealers are reporting that business primarily continues to revolve around bullion. Some retail buyers have switched their buying resources from collector coins to bullion, but rare coins are still continuing to be bought by experienced collectors. These collectors know that when a scarce coin they've been seeking for a long time is encountered it will likely cost them dearly. Many collectors are paying the freight, realizing that it may be quite a wait for another opportunity. After all, even though we're in recessionary times, about 90 percent of Americans are working and earning paychecks. The middle class is definitely pinched, nevertheless, and this is being felt by dealers. Those shops experiencing active trading are handling foreign and domestic bullion, Silver Dollars, 90% Silver coins, common Silver Proof Sets, etc. Precious metals continue to be strong, either holding steady or edging up a little. Silver has been trying to break through the $25 barrier, a psychological hurdle while Gold has been trying to close the gap and reach the $1,400 plateau. It remains $20 off of its record peak of $1,377 an ounce reached on October 14.

Heritage brought in nearly $9.4 million in prices realized as host auctioneer of this year's Stamford, CT Coinfest coin show. A few of the many highlights are listed below. Participants characterized the bourse as somewhat slow, pointing to the absence of CAC as the primary consideration in that regard. In the past CAC offered free evaluation of up to 20 coins per collector in attendance. Dealers believe that previously CAC's courtesy service helped bring out the collector community in much larger numbers. The show promoters were praised for providing outstanding security at the event. Doyle of New York concluded a one-session, 202-lot sale on Nov 1 that realized just over $510K. An 1888 $3 Princess graded MS64 by NGC fetched $7,188 and a raw 1902S $20 Liberty garnered $4,200. Top honors at the sale went to a Kingdom of Hawaii $10 Certificate of Deposit that commanded $134,500.

Several dealers are already in Maryland privately trading within hotel rooms and other pre-arranged locations while they await the Baltimore show, set to open to the public at noon on Nov. 4. Bowers and Merena Galleries is scheduled to begin a multi-session sale on Nov. 4. A somewhat regional show for many is set for Nov 6-7 in Fort Worth, TX, while the Bay State Coin Show in Boston is the next east coast site of much coin activity to take place Nov 12-14. Show circuit faithful will hasten out west for the Santa Clara, CA Expo Nov 19-21. Teletrade will offer onsite viewing at the Expo for their online sale scheduled to begin Nov 21.

This Week's Market

CENTS THRU HALVES: Activity is dominated by Silver related material in both Uncirculated and Proof condition. Higher Bids target 90% Silver Dimes, Quarters and Halves in addition to the 40% issues. Several Clad Kennedy Half Dollar rolls are also needed with dealers paying $12.50 for any date.

MERCURY DIMES: Easy turn around is possible when problem-free examples of better dates, semi-keys, and keys are acquired in grades through XF at or near Bid. In the higher grades, retail prices are heavily dependent upon each coin's individual merits.

WALKING LIBERTY HALVES: Gem examples of the '20D, '20S, '21D, and '23S are desired at Bid, while the '17S (Obv & Rev mint mark), '18, and '19 are needed just below Bid. Fully struck examples that are blast white is a requirement for most. First year, 1916D, strides higher in MS65, now Bid $1,900. 1935S scoots up in MS64 to $485 and trails only the '34S and '38D in the MS64 grade column.

DOLLARS: Widespread Bid advances have been recorded for Circulated Morgan Dollars. Circulated Peace Dollars are also advancing in grades VG through AU. These increases are in response to a rising Silver Spot, closing at $24.56 on Oct 29 for a new 30 year high. Several better date Morgans are needed in Choice and dealers have pushed Bids higher in hopes of bringing some to market. DMPL Morgans are also on the move with Bid advances seen for 13 of the 21 lowest priced issues in the 64 grade column. Similar results are seen for Gem examples with a baker's dozen now higher. Silver Ikes now have a minimum Bid of $7.40 for Blue issues and $7.50 for the Brown boxed specimens.

PROOF SETS AND MINT SETS: Early Proof Sets from 1936 through 1942 enjoy at least one dealer paying current levels for quality material. 1955 Flat Pack continuing thru the 2009 remain targeted at or near Bid. Just about every Mint Set to date is actively sought at or near Bid beginning with 1959.

COMMEMORATIVES: Warning: Persistent Bidders in MS65 and MS66 are visible, though follow through is not as constant. Decent examples of 1893 Columbian MS66, 1921 Alabama MS65, 1923S Monroe Doctrine MS65, and a 1935 Hudson MS65 all sold at retail public auction this past week for less than Bid. Gold Commems display complete support in MS63 through MS66, with decent quality coins routinely selling for Bid and above.

TYPE: Mint State Barber coinage is on the up once again by way of higher Bids. Perhaps not enough coins were brought to the marketplace from the last round of increases, or the offered material does not meet today's standards. Proof Type: Copper, Nickel and Silver struck since 1859, first year that the Mint kept official records, is desired from PR63 to PR65 at or near Bid.

GOLD: Gold Spot has increased by $12 from our last report which leads directly to advances for American Gold Eagles, foreign Gold and other bullion items. Old Gold with the added numismatic factor are still slightly out of favor and continue to be discounted. $20 Libs are Bid $1,350 in VF20 bringing them to less than 3.5% over melt. A few bright spots are seen for select Gold Type in the MS62 through MS64 grade range.

A weekly comparison of certified coin Bid levels relative to CDN sight–seen Bid levels (as 100%) sampled from 10 U.S. coin series (2 grades each; avg is for the 20 ratios). All %'s relative to CDN as 100%. Data from latest issue of CDN, Monthly Supplement, & Certified Coin Dealer Newsletter (sight–unseen Bids). Refer to CCDN for specific certified Bid levels. ANACS Bids & green or gold label PCI Bids are for slabbed coins only. INS bids are for blue certs. SEGS Bids are for labels without negative comments. Use this Indicator to survey the entire market, not just for a single issue; apply these ratios to CDN Bid to obtain a trading range for comparisons. For more details on the Indicator and a complete listing of coins, refer to the July 1988 Monthly Supplement.

Coins certified by other services *may* trade at a discount; understand each services standards before using the Greysheet grades as a pricing guide.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high Bidder, but will be strongly influenced by those which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem full bands" rolls are worth more than listed prices particularly the pre-1941 issues. Washington rolls dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN

The Market in Depth

Here we go again – another new record-breaking Gold price along with a new 30-year high for Silver. Gold broke through the next psychological hurdle of $1,400 on November 8 after a roughly $75 gain in about 10 days. Silver broke through $25 on November 4 after resisting that level for a couple weeks, then quickly soared to more than $26 within a day, before vaulting again to more than $27 the next trading day. Of course, these recent gains are due in part to the Federal Reserve's $600 billion stimulus announced on November 3. Gold closed November 9 at $1,409, and Silver settled at $28.90, with an intraday high of $29.32. Advancing Silver and Gold prices usually stimulate activity at major shows, and the Baltimore Expo was no exception. Traffic was brisk, and dealers were generally happy with their results. Many sellers are pricing their coins in line with the current sleepy pace of the collector coin market, making it easier to actively trade, and on the other hand, fresh choice Mint State coins are in demand and selling well.

Bowers & Merena conducted their official auction at the Baltimore show, bringing in nearly $18 million. Among the highlights was *The Kupersmith Collection of 1875 Gold Coinage* – the finest known Gold coins of that year, and genuine rarities each in their own right. The collection lacked $10 and $20 examples, but the other coins sold for strong prices. The two $5s brought $143,750 for the NGC Proof 66 Cameo and $149,500 for the NGC AU55. The $3 piece, an NGC Proof 66 Ultra Cameo, sold for $253,000. The highest priced coin in the sale was an 1851 Augustus Humbert $50 Gold, 887 which brought $316,250. The next highest priced coin was the Norweb 1796 15 Stars NGC MS63 Half Dollar which brought $299,000. The #2 ranked PCGS Registry Set of Standing Liberty Quarters attracted interest. The PCGS, CAC MS67+ Full Head 1916 sold for $195,500, while the collection's PCGS, CAC MS65+ Full Head 1927S attracted a winning Bid of $149,500.

Stack's conducted a Baltimore pre-show auction, their 75th Anniversary Sale, which totaled over $4.5 million. Hundreds of bread-and-butter coins sold from about $200 to a few thousand dollars. The highlights included a PCGS graded PR65 1913 $20 with a Gold CAC sticker, meaning it exceeded CAC's standards for the grade. It brought $103,500. A companion 1913 $10 graded PR66 by PCGS and verified by CAC sold for $80,500. Two additional highlights included a 1901 $2½, graded by NGC as Proof 69 Ultra Cameo, which sold for $87,975 and a 1906 $20, selling for $86,250, graded Proof 65 Cameo by PCGS and stickered by CAC.

This Week's Market

MERCURY DIMES: Supporting Bids are cropping up for select coins, one example is the '39S in MS65FB, where at least one dealer will pay $500 for solid examples. Two semi-keys, the 1921 and 1926S, both at the MS64FB grade level, are both needed near Bid. Issues that Bid less than $1,000 often sell for Ask or more, while CAC coins routinely garner in excess of Ask, often by a wide margin. Last week two CAC coins, a 1934 MS65FB sold for $150 against a Bid of $100 and a 1939S MS65FB went for $633 against a Bid of $500.

WALKING LIBERTY HALVES: Gem quality material pick up a few new interested buyers: 1916D, 1917, the 1917S, 1918, 1919 and 1921 are all needed. Key dates – '20D, '20S, '21D, and '23S – have been targeted at Bid for quite some time. The short-set, as always, is in strong demand in MS63 and MS64 with a select group from the Set advancing in the two aforementioned grades.

DOLLARS: Dealers are looking to acquire large quantities of common date Morgan and Peace Dollars in virtually all grades from VG thru MS65. Several of the slightly better date Morgans in MS63 are also being targeted. With Silver Spot's new recent peak, many newcomers are now participating in this market segment.

PROOF SETS AND MINT SETS: Business as usual here apart from the items driven up primarily by consideration of a higher Silver Spot. Proof and Mint Sets, beginning with the '55 Flat pack Proof Set to the present, and the 1959 Mint Set to the present, are being bought and sold in quantity within the Bid/Ask spread.

COMMEMORATIVES: Bids move higher for select issues in grades MS64 to MS66, and included within this select group, the 1922 Grant Memorial with Star, now Bid at $2,750, $6,250, and $10,500 for grades MS64, MS65 and MS66, respectively. On the more collector oriented side advancers include more modestly priced fare; quality however remains the watchword. Modern Silver Commems are up more than 10% from our last report. Proof American Silver Eagles will finally go on sale again November 19th for $46 each with a limit of 100 per household. Dealers are currently paying $57 each for issues dated 2008 and earlier. Classic Gold Commems are replete with support from MS63 thru MS66. Contemporary Gold Commems are higher as a direct result of an ever increasing Gold Spot.

TYPE: Mint State and Circulated Type remain of great interest to many dealers and display a number of adjustments both up and down. Several issues within Proof Type are lower including Matte Lincoln Cents, Type II Three Cent Silvers, Seated Dollars with Motto, and Trade Dollars.

GOLD: Gold Spot closed above $1,400 an ounce for the first time in history. This has resulted in widespread increases for pre-1933 numismatic Gold Type, Modern bullion, and foreign material as well. Proof American Gold Eagles are trading for $1,570 an ounce and 2010 dated examples remain available from the Mint in all sizes.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be "certified" or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the exact at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a sight-seen coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be strong enough to buy which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

Fox Business Network
"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

Jim Kingsland,
Editor

Coin Values, August 2008
"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

Mark Ferguson

The Coin Dealer Newsletter
"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

August 14, 2009

Ira and Larry Goldberg Auctioneers
"It is very simple, CAC coins bring premiums!"

Larry Goldberg

Stack's
"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. David Bowers,
Chairman

Bowers and Merena Auctions
"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

Steve Deeds,
President

Heritage Auction Galleries
"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

Todd Imhof,
Executive Vice President

DLRC Auctions
"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

John Feigenbaum,
President

PRECIOUS METAL VOLATILITY BOOSTS MARKET ACTION
MORGAN AND PEACE DOLLARS SOAR

The Market in Depth

The top event driving business continues to be the bullish trend for precious metals. Frenzied trading took place on November 9, pushing Silver to more than $29 per ounce in intraday trading, closing at $28.90, while Gold was driven to a record close of $1,410, slightly lower than its intraday high that trading day. Various trends affecting the coin market continue to take shape as a result of the bullish precious metals market. For example, generic Gold Type has finally risen across-the-board, and is holding mostly steady in spite of the $70 drop in Spot from last week. Generic Silver material continues to soar, as Morgan and Peace Dollars surge ahead week after week. Bags of Culls (AG-G Dollars) are now trading for over twenty grand. In addition, the influence the jewelry market is having on coin dealers cannot be ignored. The higher price for Gold is negatively affecting sales of Gold jewelry; therefore, jewelry dealers are looking for additional ways to earn their keep and to profit from the opportunities brought by higher Gold prices. Of course, one very lucrative endeavor these days is buying scrap Gold jewelry from the public, just as a large number of coin dealers are doing. Gold coins, modern and vintage, are coming into the jewelry stores and jewelers have learned how to buy them based solely on their melt value. This is obvious competition for coin dealers, and profits from Gold coins could certainly lead to jewelers purchasing larger collections. Indeed, jewelers are becoming coin dealers.

Some coin dealers are looking at this trend of jewelers entering the coin market as an opportunity. They are soliciting business from jewelers by buying coins from them and selling into a bigger market. This is a great way for businesses to work together rather than against each other. And it might stave off long-term competition created by jewelers becoming permanent coin dealers. Coin dealers also need new ways to enhance revenue because sales of collector coins continue to be slow. Higher priced coins are seeing activity, but coins usually purchased by people of moderate means, the majority of customers, is what's generally weak today. On the other hand, many coin dealers who handle bullion are reporting a "balanced" business, both on the buying and selling sides.

An approaching burden for coin dealers in the business of buying from the public is the 1099 reporting requirement scheduled to begin on January 1, 2012. While the new Congress is preparing for the upcoming session, the health care legislation requiring the 1099 reporting form has been recognized and recently acknowledged by the President as a big problem for small businesses. Gold and Silver PAC as well as ICTA continue to lobby for the repeal of this requirement and are calling on dealers to become educated on how to join the cause in an organized and effective manner.

Next up, Collectors Universe will host the Santa Clara Expo, November 19-21; Teletrade will hold an online auction November 21, and will allow lot viewing at the expo. December 2-4 is earmarked for the Southwest Money Show in Houston, preceded by PNG Day. Then PCGS will keep the action alive with their Members Only show at the Venetian hotel in Las Vegas December 15-18.

This Week's Market

CENTS THRU HALVES: BU and Proof rolls that are bullion sensitive are higher; this includes the usual pre-'65 common date Dimes, Quarters and Halves, in addition to late-date Silver Proofs of the same denominations. Select Lincoln Cent Rolls, mostly from the '60s, falter and remain available at a discount.

MERCURY DIMES: Select dates, prior to the 1930S, white or near white, grading MS63 to MS65FB are sought at or near Bid. Two semi-keys, the 1919D and 1921D, are targeted this week by way of higher Bids for non-FB examples in MS64 and MS65, respectively. Circulated Mercury Dimes with honest wear are actively trading in the $1.85 to $2.00 range.

WALKING LIBERTY HALVES: Gem examples of the 1934S, the short-set key date, are sought and now striding forward to $3,700 Bid. As a result of this and other increases, the 20-coin set is now Bid $3,925 in MS65. These same sets, just one grade lower, are much more affordable at $1,200 Bid, yet still remain a challenge for the newbie.

DOLLARS: Spot may have cooled off, but the demand for Circ Morgan and Peace Dollars is unabated Strong advances cling to VGs through AUs. Common date Morgans in MS63-65 all shimmy upward, now at $39, $55, and $125, respectively. These higher prices are for blast white examples, though toned and less attractive specimens are also needed for just slightly less. Generic Mint State Peace Dollars are solid at current levels and remain unchanged.

PROOF SETS AND MINT SETS: Every Mint Set from 1959 on has a buyer at or near published levels, aside from the 2004, which is now 5% lower at $19. At least one dealer is looking to buy up to 1,000 3-piece Mint Sets at $11.75 each. Except for a handful of Prestige Sets declining, the majority of Proof Sets have multiple, visible buyers in need of material, possibly in preparation for the holiday season.

COMMEMORATIVES: Silver Commems remain robust with Bidder support, with the MS65-66 grades being the main targets. The spread between Bid and Ask is extremely tight on some issues where sellers are offering their coins for not much more than the current market-maker is paying. Blast white examples are currently in vogue, yet collectors may choose to acquire examples that are attractively toned, Prooflike, or even with a Matte-like finish in some cases. Every single Classic Gold Commem has multiple buyers in grades MS63-65, including the massive $50 slugs.

TYPE: Mint State Silver Type is on fire, with no less than 16 advances peppering the chart. Dealers are hot to acquire much needed material, including Seated coinage of all denominations, Twenty Cent Pieces and Quarters with the TII Standing Liberty and Barber designs. Proof Type, while not quite as strong, is by no means soft. Buyers will eagerly snatch up any fresh material that is problem-free and solid for the grade.

GOLD: With Spot down some $70 from last week, one might expect the worst. However, some material that is sort of bullion, sort of numismatic softened only a bit, namely Double Eagles in MS62 and MS63. Minor denominations are biased toward positive territory. For example, Half Eagles, Quarter Eagles and Dollars are up by as much as 8% in MS60. Double Eagles in the melt zone, i.e. VF and XF, are unchanged, resulting in a return to the premiums that vanished during Gold's recent, rapid spike.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay [illegible] above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and [illegible] rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark - these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, gem "full bands" rolls are worth more than listed prices particularly the pre 1941 issues. Washington rolls dull or "put together" bring lower prices. [illegible] rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

LARGEST TELETRADE SALE SCORES OVER $1 MILLION

COUNTERFEIT SCOURGE STILL A PROBLEM

The Market in Depth

Advancing precious metals prices have taken a breather during the past week, turning attention back to the mainstream coin market. Unfortunately, the extraordinary bull market in the metals since late summer has not created as many new coin collectors as dealers would like. But those few customers who have caught the collecting bug are most likely starting with modern coins. Collecting Gold coins, both vintage and modern, has gotten even farther away from the reach of average collectors because of significantly higher prices as of late, even as premiums for many Gold and Silver coins have vanished for the time being.

A similar trend of growing prices for rare coins over the long-term has also changed the landscape for more experienced collectors. As prices have risen over the past decade, many collectors have either stopped collecting their specialty series, or have decided to sit on the sidelines to wait for better opportunities. Currently, many collectors have finally stepped up to the plate, buying again during the past year because prices for many rare coins are now less expensive than a couple years ago. This is especially true for multi-thousand dollar coins. Collectors like the fact that they can now buy some of the coins they've been waiting for at substantially reduced prices. But overall, higher long-term prices for series coins have forced many collectors to turn away and move to Type coin collecting, or adjust their series collecting by purchasing material in lower, less expensive grades. This trend is also carried further by collector/investors who are buying rare coins without a theme. When such coins come up that are exceptional in quality for the grade, CAC stickered as a bonus, and fairly priced, they're being put back for long-term appreciation.

On the auction scene this past week, the official Santa Clara Expo auction by Teletrade closed November 21. Total prices realized were $1,072,219. This was about four to five times the size of a typical Teletrade sale, the company's largest ever, with an offering of over 5,200 lots. The top price was realized by a PCGS Genuine 1801 $10, which brought nearly $18,000, a strong price for a coin with no grade. On the other hand, two 1911D Quarter Eagles, graded MS63 by NGC, each brought greatly discounted prices of $11,287 for this popular coin. Two additional popular issues that firmly held market prices in this auction were a 1916 Standing Liberty Quarter graded PCGS VF30 which realized $8,525, and an 1893S Morgan Dollar graded PCGS XF45 which sold for $8,300.

Counterfeit coins remain a problem in the numismatic marketplace. One dealer encountered a client who showed him a crude counterfeit 1844 Liberty Seated Dollar at the Santa Clara Expo. The client purchased this fake product from another collector, which suggests that such material has infiltrated the collector community. Both the coin and the PCGS slab were bogus. Because of the recent rash of sandwich counterfeits coming out of Northern California, this dealer took a closer look; he noticed the absence of a light blue tint and too much frost in the plastic holder. In addition, the coin and holder were underweight. Dealers are also reporting counterfeit War Nickels showing up in junk Silver rolls and bags, which are underweight by a half gram or more.

This Week's Market

MERCURY DIMES: Many of the early Denver Mints are sought in Choice thru Gem Unc including the '21D, one of the key dates to the series. Full Band coins, generally speaking, are in less demand on the wholesale Bidding front, yet observable transactions regularly take place at Ask and above for collector material priced from $250 to $1,000 in grades MS63FB to MS65FB.

WALKING LIBERTY HALVES: Dealers are looking for XF examples of the '35S and '36S, and having a difficult time apparently getting the quantities needed, so Bid gets ratcheted up to $40 and $25, respectively, to shake a few loose. Gem examples of the 1941S find room to expand, and are now Bid $820. The '41S, like most of the San Francisco short-setters, enjoys a much larger percentage gain from MS64 to MS65 than do the Denver and Philly brethren.

DOLLARS: Circulated Morgan and Peace Dollars trudge higher again this week, beginning in VG and continuing thru AU. Spirited demand persists for the AG/G Culls as well. King of the CC Dollars discovers strength in MS64 as Bid rises to $55,000, a sizable $6,000 advance. A handful of unsupported better date Morgans in MS64 lose some ground– 1893, 1879S (Rev '78), 1901S, and the 1900 O/CC. Four of the San Francisco Peace Dollars in MS64 are under pressure; Bid moves higher for the '23S, '24S, '25S, and '28S.

PROOF SETS AND MINT SETS: Bidders have stepped back in time to 1957 and are looking to purchase just about every Proof Set from that year to 2009. Silver Proof Sets from 2003S to 2006S get pushed up a couple bucks to $35. Mint Sets are also in demand, particularly the 1962 and 1963 examples this week, with dealers paying up to 20% over Bid for Mint sealed examples.

COMMEMORATIVES: MS65 and MS66 is where the action is for the Classic Silver, which is good news, as these very popular issues are available nicely struck, blast white or attractively toned. For many of the designs, Gem examples are Bid only nominally higher than Choice and MS64 specimens. All of the Pan-Pacific Expo and Louisiana Purchase Gold Commems show the widest breadth of support across Mint State grades. Gold Commems have buyers at the ready for virtually every example in Choice thru Gem at Bid. Proof American Silver Eagles dated 2010 went on sale at the US Mint for $46 with a limit of 100 per household. Dealers are currently paying $51 for this same coin and will take quantities. Prior dates are holding steady at $57 Bid.

TYPE: A proper Type set of Federal issue US coins begins with the 1793 Half Cent, and at least one dealer is eager to acquire XF and AU examples at the $22,500 and $31,000 levels, respectively. Dealers are honing in on the last two Half Cent design Types – Classic Head and Braided Hair in MS63BN thru MS64RB. Higher Bids have been recorded for Cap Bust Half Dimes in MS63 in addition to all Barber denominations in several Mint Sate grades.

GOLD: Advances adhering to $20 Saints in VF20 thru AU58 are about the same change as that which occurred in Spot from last week. Premiums are stiffening a tad in the VF/XF range, though collapsing in the AU thru MS60 range. Most minor denominations continue to strengthen in the majority of Circulated grades.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium over Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

NCS recovers a rare collection from a devastating accident.

In mid-2010, a private collection of rare US coins was nearly destroyed in a house fire. Fortunately, the experts at NCS were able to salvage the coins from the rubble and return them to their previous condition.

Don't let a devastating accident destroy the value of your collection. To learn more about expert conservation services from NCS, visit www.NCScoin.com/Conservation

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over $100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

1099: THREE STRIKES, BUT NOT OUT
WINTER SHOW CIRCUIT UNDERWAY

The Market in Depth

An attempted repeal of the new 1099 reporting requirement failed twice in the Senate Monday, November 29. That is, both suggested solutions—one from Democrat Max Baucus (44 yeas and 53 nays) and one from Republican Mike Johanns (61 yeas and 35 nays) were unable to surpass the required 67 votes to secure an overturn. This amounts to a total of three rejections when including the previous appeal to change the requirements of the new law by increasing the $600 threshold to $5,000 for businesses with 26 or more employees. Some coin dealers anticipate that many people who intend to sell coins during the next few years will step up their plans to do so before the end of 2011 in order to avoid getting caught up in the 1099 forms that will be required to be sent to Uncle Sam starting January 1, 2012. There is concern that this selling could negatively impact coin prices in the current recessionary environment. This would especially be true of marginal or off-quality coins, particularly if they are common and easy to replace. Those coins that are scarce, fresh to the market, and outstanding for the grade continue to be snapped up quickly if they are priced fairly, and this trend is expected to continue, according to those dealers who are involved in that area of the coin market. Those types of coins could also see price increases. Demand is strong for fresh, high-quality, scarce coins. Because business is off for dealers who cater to middle-class series collectors, some may recognize that "better" coins are the area to be in right now. Common series coins, both vintage and modern, may not pick up until unemployment and the economy improve significantly.

The fight to repeal the 1099 law isn't over. For example, in an open letter to American small business owners on November 22, Karen Mills, SBA Administrator, said, "All businesses that pay another individual or business $600 or more for goods or services starting in 2012 will be required to issue 1099s. The unintended consequence of a potential paperwork burden resulting from this provision quickly came to light, and we immediately began working across the Administration to reduce the burden of these potential future reporting requirements, as I noted in a letter to small businesses in May." She concluded her November 22 letter with, "Overall, with your help, we will continue to ensure that America's entrepreneurs and small business owners operate in an environment not burdened by excessive regulation, allowing you to continue doing what you do best: grow businesses, create jobs and lead America's economic recovery."

Those in the coin dealer industry have been urging their colleagues to express their dissatisfaction with this upcoming requirement by contacting the Senate at www.senate.gov, or www.house.gov, or calling Capitol Hill at 202-224-3121.

Many dealers and collectors are currently in Houston for the Money Show of the Southwest, PNG Day and Heritage auction December 2-5. Bonhams will be conducting a sale in New York, December 8, highlights are included herein. Next is the PCGS private affair in Las Vegas, December 16-18, offering discounted onsite grading and a mini bourse for its members. Bowers & Merena will be doing some housecleaning with an accumulations auction on December 14.

This Week's Market

CENTS THRU HALVES: Silver Spot had its usual positive impact on those BU and Proof Rolls that are driven almost exclusively by their melt value. The list of issues driven by Silver Spot continues to widen as Spot advances, washing away numismatic premiums.

MERCURY DIMES: Interest continues to focus on a select group of early dates, specifically the 1919D and 1921D in grades MS63 thru MS65, as well as the slightly less high-powered 1927D and 1928D, in the same grades. Two certified AG examples of the key date 1916D fetched $518 and $575 in recent public auctions.

WALKING LIBERTY HALVES: The issues that comprise the short-set are always in demand especially in grades MS63 and MS64. Now the number of issues that dealers are seeking in full Gem condition is increasing as well. MS65 Walkers remain a collector favorite, and the majority are sought at or near Bid.

DOLLARS: Circulated Morgan and Peace Dollars make yet another positive move in grades VG-AU. Generic dates advance in MS60 for both Peace and Morgan Dollars, while a slightly larger group of Morgans advance in MS63 and MS64, raising the minimum Bids to $34 and $56, respectively. The standard caveat remains in place, which is that the coins must be white, or untoned.

PROOF SETS AND MINT SETS: Dealers are always looking to acquire multiples of Proof Sets and Mint Sets heading into the holidays, and such sets make perfect stocking stuffers. The minus signs seen this week reflect those dealers adjusting their inventories and balancing their stock in hopes of being prepared for the shopping season. A bonus here in the context of retail sales is that Proof and Mint sets from the years 1959 to 1964, and the majority of Silver Proof sets in the '90s to the present, are priced right around melt – possibly an attractive tidbit of information to help close the deal.

COMMEMORATIVES: Solid support persists for nearly all issues in MS65 and MS66. There are a few advances to report, including the Antietem in MS64, the Connecticut in MS63, and the Lincoln, Illinois in XF/AU. Interestingly, the 2010 Lincoln Presidential Dollars were just released and may find themselves tied into a promotion, paired with the aforementioned Commem. Classic Gold Commems continue to maintain their strength and popularity at current levels.

TYPE: Mint State Types most eagerly sought are those that were produced for just a short period, about 5 years or less. Collectors often perceive such issues as "exotic" and desirable. Included in this camp are Flying Eagle Cents; 1859 Indian Head and Copper Nickel Cents; TII 3¢ Silvers; and the No Stars Half Dimes and Dimes. Within Proof Type, strong demand can be seen for Indian Head Cents in grades PR63BN thru PR65RD as well as Two Cent pieces in the same grades.

GOLD: When Gold Spot was $819 an ounce two years ago, Gem $2½ Indians weighed in with a Bid of $3,250; $5 Libs w/Motto at $3,275; $10 Libs w/Motto at $4,800; and $10 Indians at $4,750. Gold Spot is on an upward trend in recent days, presently at $1,366, some 67% higher from November 28, 2008. The aforementioned Types are currently Bid at $3,000; $2,700; $3,700; and $3,200 respectively.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the level at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Asks which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" [illegible] In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mercury ser[illegible] "full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike [illegible] rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

SILVER SHOOTS TO $30 AN OUNCE
HOUSTON AUCTION GARNERS OVER $7 MILLION

The Market in Depth

After roughly three weeks of hibernation, precious metals began to wake up. On December 3, Gold settled in record territory above $1,400 for the first time since November 11, then continued even higher on December 6 to close at $1,415.30. Silver crossed its next higher psychological barrier of $30 on December 6, during intraday trading, which was reached for the first time since 1980. Quite importantly, today's Silver price is escalating in a more natural market environment as opposed to that which took place in 1980. Silver has now risen by about 75% this year, with intraday trading as high as $30.30 an ounce. Gold is about 25% higher for the year, with a very strong intraday trading peak of $1,432 to start the week. As a reflection of rising precious metals prices, the most active trend at coin shows this fall has been, and continues to be, bullion related products. This area has been very actively trading in all forms from American Silver Eagles to Silver Dollars, to 90% bags, as well as bars and ingots. The American Eagle Palladium Coin Act of 2010 recently passed in the House and Senate, and as a result will soon become law. This Palladium one ounce bullion coin, with a .9995 fineness, and a $25 face value, will employ the Mercury Dime Winged Liberty design on its obverse, and the American Institute of Architects medal design on the reverse. Palladium closed today at $751, up 78% from January.

In addition to the precious metals market segment, coins that are on the higher end of the grading scale remain active and very much in demand. Dealers are making markets in these PQ coins, many of which are CAC endorsed, and in response, the Certified Coin Exchange is now allowing those with the green bean to be traded through their system. Such coins are being purchased by astute collectors with the necessary resources. Sales to those with less discretionary income continue to be very slow for many dealers across the country. Series coins and Modern Commems are two examples of market areas particularly weak currently, other than serving a few die-hard collectors who are still buying. Mixed reviews came from the Money Show of the Southwest and PNG Day. Public buying activity was strong for Gold material, but other market areas were decidedly slow. Heritage wrapped up their Houston auction December 5, which captured over $7.1 million, and we have included several of the many highlights herein.

Sales of the highly anticipated Silver five ounce rounds of the National Parks series to authorized distributors, were suspended by the US Mint December 6. With a mintage of 33,000, the unexpected demand for these "hockey pucks" resulted in extremely high premiums before even entering the after market, which reportedly caused the Mint to reevaluate the release of the product.

This Week's Market

MERCURY DIMES: Select key dates are in strong demand, especially in grades MS63-MS64. The 1921D is perhaps the most sought-after date in the entire series when one considers this date is desirable to collectors from the lowest reaches of Circulated examples to the stellar Mint State examples exhibiting Full Bands. Collectors derive such satisfaction from the completion of a set that many are forced (because of financial reality) to convince themselves that the overdates need not be included to achieve completion.

WALKING LIBERTY HALVES: This series remains a collector's favorite, offering enjoyment for the beginner through the advanced enthusiast. Completing the 20-coin short-set in grades MS63-MS64 is often the first accomplishment of the new collector. This group of coins has traditionally been affordable, with no real stoppers, which is one of the reasons there is constant demand here. Early date Gems in the five and six-figure range must be problem-free and above average quality with a strong strike to receive all the money from fussy buyers.

DOLLARS: Generics notch further advances this week spanning the grade range from MS63 thru MS66 where Bids now stand at $40, $58, $130, and $215. Circulated Dollars exhibit no trace of weakness; in fact, even as Bid advances in all of the grades from VG through AU, market-makers are still seeking bag quantities. Morgans dated 1921 are Bid higher than Peace Dollars and pre-'21 issues in lower Circulated grades.

PROOF SETS AND MINT SETS: Always an extremely active and vibrant segment, perhaps even more so this year as we head into the holiday season because, in addition to their popularity as gifts, there is additional pressure exerted by Silver Spot. Many dealers retain a strong vestige of the enthusiastic collectors and don't want to consider melting some of this material, yet the fact remains that the melting pot is currently the high buyer.

COMMEMORATIVES: Silver Commems remain strong as they have for some time now, especially in grades MS65-66. Analysts are keeping a close eye on this series as changes are taking place on one of the dealer-to-dealer electronic trading networks which may affect the market-maker here. Classic Gold Commemoratives maintain their health at current levels with visible buyers present for most issues in multiple grades. Contemporary Commems, both Gold and Silver, are higher in response to Spot.

TYPE: Half Cents of the Classic Head and Braided Types are targeted for acquisition from Choice Unc thru Gem Unc, and the same holds true for the three Types of Three Cent pieces. Demand for the Nickel issues is mostly limited to the grades MS63-MS64. Silver Types are somewhat more selectively targeted, though interestingly, Liberty Seated coins from the Dime thru the Half Dollar are most actively Bid in the Gem column, including the No Stars Dime, No Drapery Quarter and Arrows Half 1854-1855.

GOLD: At $1,415 an ounce this week compared to $1,366 in last week's report, some might have expected a bigger boost to Bid levels than what is observed on the US Gold Type chart below. TII and TIII $20 Libs and Saints characterized as common dates for the Type advance anywhere from $5 to $20 in VF20 thru MS64; Gem Saints are presently Bid $2,120, a $20 drop from last week.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE. The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

MARKET STAYS AFLOAT ON GOLDEN RAFT
HAPPY HOLIDAYS — LAST ISSUE OF 2010

The Market in Depth

Happy Holidays from the CDN family of publications. May you and yours have a wonderful celebration and a happy New Year. This is our last issue of 2010; the next edition will be dated January 7, 2011.

What a fantastic year it has been for numismatics, with world record precious metal prices, establishing new, all-time highs as we go, new circulating coin designs, and a growing collector base. Even though many prices are off of their peaks, and some areas are sluggish, most shops remain busy. Much of the activity is attributed to bullion transactions with a sprinkling of carryover into rare coins. Gold and Silver prices have been stable, but slightly lower than the record high Gold set early last week and the new 30-year high reached by Silver at the same time. Gold is up 26% for the year, while Silver is seeing a whopping 71% push higher. The other white metals, Platinum and Palladium are also performing well for the year, up 12% and 82% respectively. Higher precious metal prices have certainly influenced Bids for generic Silver Dollars and Gold Type. Circulated Morgans have gone from $16 to $23 while Gems are now at $135 up from $125 from the beginning of the year. Peace Dollars are behaving similarly with Circs at $23, up from $15, while Choice examples are now Bid $35, up from $26 in January. Generic Double Eagles are showing gains as well for the year with Type 3 Libs leading the way at 18% higher in VF20.

Silver five ounce bullion versions of the National Park Quarters will soon be available from authorized distributors. After suspending the program, the Mint has since issued new guidelines for the sale of these "hockey pucks." Each of the 11 authorized distributors can purchase up to 3,000 five-coin sets at Spot plus $9.75 per coin. They can only sell them retail for no more than their cost plus 10% with a limit of only one set per household address. For the first time ever, the Mint is selling Quarter only Mint Sets in two versions: one, the Circulating Coin Set, is designed to be easily opened so the coins can be removed and placed into albums. This past year saw quite a bit of change within the industry, namely exposing and putting a stop to coin doctoring, as well as changes to grading which help to identify coins that are of premium quality. PCGS started labeling these PQ coins in March with a Plus sign after the numerical grade. Two months later, NGC began adding the + designation as well. PCGS also began scanning coins in order to create a "fingerprint" of the coin to help stop artificial enhancements. Many of these changes came from the existence of CAC which successfully initiated the fight against gradeflation and coin doctoring.

Bonhams' Coins, Medals and Banknotes sale raked in over $2 million on Wednesday, December 8 in New York. The next major trading event takes place with the annual Florida United Numismatists (F.U.N.) show and surrounding auctions in Tampa, January 6. Trading is expected to be more robust than last year's activity in light of the market firming up because of greater demand for bullion-related coins and products.

This Week's Market

CENTS THRU HALVES: Bid climbs to $22 per roll for Kennedy Half Dollars dated 2000 with at least one dealer wanting to secure two bags of each of the Philly and Denver issues. An eight percent increase to Bid is in place for Silver rolls from our last report two weeks ago.

MERCURY DIMES: Semi-key and key dates crowd collectors' want lists, especially the Denver issues in the 1920s graded MS63FB to MS65FB. Most collectors have learned that it is better to pay a stiff premium for a great coin than to buy a marginal coin at a huge discount. CAC endorsed and/or + graded coins can bring multiples of Bid in some cases. An example of the 1918 MS65FB with a + from PCGS sold for $1,438 against a Bid of $1,000.

WALKING LIBERTY HALVES: Early Walkers grading MS65 are some of the most actively sought-after coins in this series. The majority of pre-1933 issues here will set collectors back five-figures each. Enthusiasm for the short-set is impossible to exaggerate and never more so than at this time of year. This box of 20 grading MS65 is now Bid $3,875, down a bit from previous reports.

DOLLARS: Market-makers continue their aggressive pursuit of acquiring quantities of Circulated Morgan and Peace Dollars. Problem-free Dollars move up to $23 in VG for pre-1921 issues, while the other Circ grade columns hold steady. Morgans dated 1921 are higher from Fine through MS60. Uncirculated generic Morgan Dollars power higher again this week in grades MS63 thru MS66. Peace Dollars also surge higher in grades MS60, MS63 and MS64. At least one dealer is looking to buy the 1934S in MS60 for $1,550, up $75 from last week.

PROOF SETS AND MINT SETS: Nothing dull about the Proof Set segment. Buyers are constantly targeting their particular needs by placing higher Bids. A number of minus signs are in place this week as dealers look to lighten their overstock. Mint Sets are active with advances targeting late-date Silver issues, 1959-1964. With Silver Spot continuing to rise, these are perceived to have little down side, if any.

COMMEMORATIVES: The Classic Gold ensemble is ablaze with buyers who are eager to purchase the entire set, including the $50 slugs from MS63 thru MS66. A 1915S $50 Pan-Pac Octagonal graded MS64 by NGC is being shopped around for $85,000. Silver Commems also reflect intense support by way of visible Bidders, though somewhat limited to those graded MS65 and higher.

TYPE: Flying Eagle Cents remain in serious collector demand and are a must have for anyone assembling a Type Set. Quality is extremely important here as prices often double at each grade level. Copper Proof Type is also strong for most issues in virtually all grades. Downward adjustments have been recorded for a handful of popular issues including Barber Dimes and Quarters in grade PR65.

GOLD: Spot slipped $18 since our last report while $20 Saints and Type III $20 Libs drop as much as $85 over a grade range starting at VF straight through to Choice Unc. Plus signs crowd in on the Gold Dollars and Quarter Eagles in several grades.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by lower which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark – these bring lower prices, "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices – particularly the pre-1944 issues. Washington rolls dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN

Security Made Simple

NGC's tamper-evident holders and state-of-the-art holograms have become the symbol of protection for your most treasured coins. And now, the world's most preferred third-party grading service empowers collectors and dealers with an innovative, user-friendly security feature: NGC online verification.

By entering the unique NGC serial number on a coin's label, you'll access everything you need to be sure a certified coin is authentic. Enlargeable images of the coin, captured by NGC before it was shipped, are displayed alongside attribution and grade information from NGC's own secure database. It's complete protection for you and your coins — any time you buy or sell, anywhere the hobby takes you.

Lorena Washington, Coin Dealer Advocate

If You're a Coin Dealer, You Need To.

If you're a coin dealer, your mission is to sell coins. Lorena Washington's mission is to make it easier for you.

Right now, Lorena's job is to make sure that there are no empty tables at the upcoming **Long Beach Expo, February 3-5, 2011**, and show management has given her all the ammunition she needs. And donning her trademark pink vest at all major coin shows – you can't miss her.

Our new Section F ensures that for an absolutely minimal investment, you'll be in the house. It's at the back of the room, but will still be able to enjoy the many benefits of the Long Beach Expo, including the ability to interact with *hundreds* of dealers and *thousands* of collectors. You can even order a table in Section F by the day if you're so inclined, or if you sign a three-year contract, your last table is FREE! We are also offering discounted Early-Bird Dealer Ribbons, a Wednesday Post-setup Beer Fest, and if you place your order directly with Lorena at an upcoming trade show, she will include a nice gift basket free of charge.

Just look at these Section F prices:

Inline booths: $125 per day, $250 all three days.
Corner booths: $175 per day, $350 all three days.

But hurry, tables in Section F are first come, first served. To reserve your space or to talk to Lorena about a table in Section F or elsewhere, contact her at **805-962-9938** or **lorena@exposunlimited.com**, or visit **longbeachexpo.com**. Or better yet, talk to her at an upcoming coin show. She'll make you an offer you can't refuse.

Think Pink. . .Think Lorena. . .Think Long Beach!

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

Fox Business Network
"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

Coin Values, August 2008
"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

Mark Ferguson

The Coin Dealer Newsletter
"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

"It is very simple, CAC coins bring premiums!"

Larry Goldberg

Stack's
"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. David Bowers,
Chairman

Bowers and Merena Auctions
"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

Steve Deeds,
President

Heritage Auction Galleries
"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

Todd Imhof,
Executive Vice President

DLRC Auctions
"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

President
